The Organisation

Leading I.T. Training & Services Network of India

AISECT is a leading I.T. Training and Educational Services network of India, supporting a large number of Information Technology Centres essentially engaged in training, servicing and info services, specially in the field of Computers and Electronics. The organisation now has its spread in 30 states of the country.

The Multipurpose I.T. Centre Model of AISECT has been accepted as a unique methodology for sustainability in rural and under developed regions and is widely followed now both by the Govt. and the Industry. It was first replicated under a joint DST-DOE All India Co-ordinated programme in ten states and since then, has spread out to 30 states.

AISECT's work was first listed in the IIM(A) - World Bank Institute's report in 1999 as a successful strategy and has since received the Indian Innovation Award, NASSCOM I.T. Innovation Award, Golden Icon in National e-Governance Award and i4d Award 2007 from Asian Forum.

Apart from the above Network AISECT has also set up several institutions including :

- Dr. C. V. Raman University
- SCOPE College of Engineering
- SECT College of Professional Education
- SCOPE College of Education
- National Institute of Insurance Commerce and Banking.

AISECT has built up an online training system for imparting training of various Insurance professional right from school level and has a content creation group, which develops for various professional and online courses.

AISECT'S e-Gyan Centres

An Introduction

AISECT has now planned to support over 50,000 e-Gyan centres all over the country for conducting a massive computer literacy programme in fourteen Indian languages and for creating a vehicle for delivering a variety of courses on-line to students across the country. The vehicle will also be used for disseminating social sector information and for providing a variety of e-Services.

An e-Gyan centre will be an AISECT supported centre, providing computer literacy programme (CCA) in fourteen Indian languages, school level computer courses, certificate and diploma programmes in Information Technology and in various other subjects. It would also take up jobs like content creation e-services provision and social sector information dissemination. In fact it has the potential to become a knowledge node supported by AISECT.

The following facilities will be provided to the students through e-Gyan centres :

- On-Line Registration.
- Multilingual course material in CD form and in PDF format.
- On-Line Counselling and practical sessions at AISECT centres.
- On- Line examinations.

Examination and certification for all the programmes would be done on-line by the National Centre for Electronics and Information Technology (NCEIT).

Here is an opportunity for you to become a part of this great knowledge network. Interested? Then read on.....

AISECT'S e-Gyan Centres

Courses Offered
